

One-stop Solution for Solar Water Heating System

ISO9001 EN12975 EN12976 BAFA LIST

Non-pressure Solar Water Heater

- Inner tank material: **SUS304-2B, thickness: 0.5mm**
- Outer tank material: **Painted color steel/ PVDF**, thickness: 0.4mm
- Insulation layer: PU foam, density: **42kg/m3**, thickness: **50mm**
- Frame: **Painted galvanized steel**, 25 degree angle, 1.5mm
- Vacuum Tube: 58*1800 mm, ALN-AIN-SS/Cu **three target coating**.
- Connection: **all of them use Arc Argon Welding technology**
- Fastener screws: Stainless Steel
- Brand: SUNSET

Data sheet

Model	Vacuum tube		Capacity (L)	Gross area (m2)	Qty. Per 20GP / 40HQ Container
	Dia./Len.(mm)	Qty. (pcs)			
JNG-10	58*1800	10	100	1.56	73/ 175
JNG-12	58*1800	12	120	1.85	68/ 160
JNG-18	58*1800	18	180	2.72	48/ 115
JNG-22	58*1800	22	220	3.31	40/ 92
JNG-30	58*1800	30	300	4.51	28/ 68

Accessories

Magnesium rod	Thermostat Electric heater 1.25", 1500W	Assistant Tank 8L

inner tank cover
connector welding

Welding joint and it's round surface color keep nature after welding.

the stainless steel anti-corrosion haven't damaged

All connector use Arc Argon Welding technology, no SILICONE RUBBER
